

Copyright Transfer and Author Consent Form

■ Date: _____

■ Entitled: _____

Kindly confirm that your manuscript fulfils the following criteria by marking an 'x' in each appropriate box on the left after a click for download. After filling it out, please submit with your manuscript files. Alternatively, print the form, fill it out and scan it for submission.

- Upon acceptance by the Journal of Neurosonology and Neuroimaging (JNN), all copyright ownership for the abovenamed paper is transferred to the Korean Society of Neurosonology.
- We have made a substantial contribution to (1) data design, data collection, analysis, or interpretation, and (2) writing or critiquing drafts of the manuscript. We have reviewed and approved the contents of the manuscript prior to its submission.
- The manuscript is not, either in part or whole, under active consideration by any other journal, will not be submitted for review to another journal until JNN makes an editorial decision on it, and has not been published in any other journal in either hard-copy or electronic format (except in abstract form). We are jointly responsible for the release of any or all of the material contained within the paper.
- There has been no ghost writing by anyone not named as a co-author. The manuscript is free from falsification, fabrication and plagiarism.
- Research involving human subjects was performed in compliance with the principles of the Declaration of Helsinki (2008), and that involving animals was approved by the applicable institutional ethics committee or review board and conformed with generally accepted guidelines governing such work.
- For case report, we have received a patient consent-to-disclose form for any figures of patients and edited out any names mentioned in the recording. The consent form indicates specific use (reproduction in the medical literature in print and online, with the understanding that patients and the public will have access) of the patient's medical information and any images and contained the patient's signature or that of a legal guardian. In case of not being able to obtain the consent (i.e., altered consciousness, lack of patient's intelligence to make a decision, or death), the authors should seek permission from a legal guardian.
- We further attest that we have herein disclosed any and all financial and other relationships that could be construed as conflicts of interest, and that all sources of financial support for this study are disclosed in the manuscript.
